

1. Find defects and write Defect report on Tira beauty app. (5-7 major severity and priority defect only)

Defect ID	Module	Defect Summary	Severity	Priority
TIRA-001	Login	App crashes after entering invalid OTP	Critical	High
TIRA-002	Payment	UPI payment deducted but order not placed	Critical	High
TIRA-003	Cart	Cart quantity resets automatically	Major	High
TIRA-004	Product Catalog	Product images not loading on product page	Major	Medium
TIRA-005	Checkout	Checkout button disabled after address selection	Critical	High
TIRA-006	Search	Search returns unrelated products	Major	Medium
TIRA-007	Order Tracking	Order tracking status not updating	Major	Medium

Steps to Reproduce	Expected Result	Actual Result	Status
Enter wrong OTP and click verify	Error message should appear	Application crashes unexpectedly	Open
Complete payment using UPI	Order should be created successfully	Amount deducted but no order confirmation	Open
Increase product quantity and refresh page	Selected quantity should remain same	Quantity resets to 1	Open
Open product details page	Product image should display	Blank image section displayed	Open
Select address and continue to checkout	Checkout button should work	Button becomes unresponsive	Open
Search for lipstick	Relevant lipstick products should display	Random products shown	Open
Place order and track shipment	Tracking status should update regularly	Status remains unchanged	Open
