

Automate any web based application and use all the concepts of selenium like

1. Text field
2. Buttons
3. Radio buttons
4. List box
5. Dropdown button
6. Image handling
7. Check boxes
8. Scroll page
9. Take a screen shot of page
10. Use actions class to handle actions(double click, right click, mouse over , slider, drag and drop, dynamic click)
11. Handle alerts(All type of alerts)

Script:

```
package selenium_project;
```

```
import java.io.File; import  
java.io.IOException;  
import java.time.Duration;
```

```
import org.apache.commons.io.FileUtils; import  
org.openqa.selenium.Alert; import  
org.openqa.selenium.By; import  
org.openqa.selenium.JavascriptExecutor; import  
org.openqa.selenium.OutputType; import  
org.openqa.selenium.TakesScreenshot; import  
org.openqa.selenium.WebDriver; import  
org.openqa.selenium.WebElement; import  
org.openqa.selenium.chrome.ChromeDriver;  
import org.openqa.selenium.interactions.Actions;
```

```
public class DemoQA_AllConcepts { public static void main(String[] args) throws
```

```
    InterruptedException, IOException { WebDriver driver = new ChromeDriver();
```

```
    driver.manage().window().maximize();
```

```
    driver.manage().timeouts().implicitlyWait(Duration.ofSeconds(10));
```

```
// Open website
driver.get("https://demoqa.com/text-box");

// 1. Text Field

driver.findElement(By.id("userName")).sendKeys("Anish Awalgaonkar");

driver.findElement(By.id("userEmail")).sendKeys("anish@gmail.com");

driver.findElement(By.id("currentAddress")).sendKeys("Pune");

driver.findElement(By.id("permanentAddress")).sendKeys("Sambhajinagar");

// Scroll Page

JavascriptExecutor js = (JavascriptExecutor) driver;

js.executeScript("window.scrollTo(0,500)");

Thread.sleep(2000);

// 2. Button

driver.findElement(By.id("submit")).click();

Thread.sleep(2000);

// 3. Radio Button

driver.get("https://demoqa.com/radio-button");

js.executeScript("window.scrollTo(0,300)");

driver.findElement(By.xpath("//label[@for='yesRadio']")).click();

Thread.sleep(2000);

// 4. Check Box

driver.get("https://demoqa.com/checkbox");
```

```

driver.findElement(By.xpath("//button[@title='Expand all']")).click();

driver.findElement(By.xpath("//span[text()='Desktop']")).click();

Thread.sleep(2000);

// 5. Dropdown / List Box driver.get("https://demoqa.com/select-
menu");

WebElement dropdown = driver.findElement(By.id("oldSelectMenu"));

org.openqa.selenium.support.ui.Select select =
    new org.openqa.selenium.support.ui.Select(dropdown);

select.selectByVisibleText("Purple");

Thread.sleep(2000);

// 6. Image Handling (Upload Image)

driver.get("https://demoqa.com/upload-download");

driver.findElement(By.id("uploadFile"))
    .sendKeys("C:\\Users\\HP\\Pictures\\test.png");

Thread.sleep(2000);

// 7. Screenshot

TakesScreenshot ts = (TakesScreenshot) driver;

File src = ts.getScreenshotAs(OutputType.FILE);

File dest = new File("C:\\Users\\HP\\Desktop\\screenshot.png");

FileUtils.copyFile(src, dest);

System.out.println("Screenshot Taken");

// 8. Actions Class

driver.get("https://demoqa.com/buttons");

```

```
Actions act = new Actions(driver);

WebElement doubleClick =
    driver.findElement(By.id("doubleClickBtn"));

act.doubleClick(doubleClick).perform();
Thread.sleep(2000);

WebElement rightClick =
    driver.findElement(By.id("rightClickBtn"));

act.contextClick(rightClick).perform();

Thread.sleep(2000);

// Drag and Drop

driver.get("https://demoqa.com/droppable");

WebElement source = driver.findElement(By.id("draggable"));

WebElement target = driver.findElement(By.id("droppable"));

act.dragAndDrop(source, target).perform();

Thread.sleep(2000);

// Slider

driver.get("https://demoqa.com/slider");

WebElement slider =
    driver.findElement(By.xpath("//input[@type='range']"));

act.dragAndDropBy(slider, 50, 0).perform();

Thread.sleep(2000);

// Mouse Hover

driver.get("https://demoqa.com/menu");

WebElement hover =
```

```
        driver.findElement(By.xpath("//a[text()='Main Item 2']"));

act.moveToElement(hover).perform();

        Thread.sleep(2000);

// 9. Alerts

driver.get("https://demoqa.com/alerts");

driver.findElement(By.id("alertButton")).click();

Alert al = driver.switchTo().alert();

System.out.println(al.getText());

al.accept();

Thread.sleep(2000);

// Confirmation Alert

driver.findElement(By.id("confirmButton")).click();

Alert al2 = driver.switchTo().alert();

al2.dismiss();

Thread.sleep(2000);

// Prompt Alert

driver.findElement(By.id("promtButton")).click();

Alert al3 = driver.switchTo().alert();

al3.sendKeys("Hello");

al3.accept();

Thread.sleep(2000);

System.out.println("Automation Completed");

driver.quit(); } }
```
